

Turbocharge admissions with the fast CRM integrations you need.

Your school deserves the smartest iPaaS solution for higher education.

There's a perfect choice for college admissions teams seeking to streamline operations, connect reliable data, and automate the entire admissions process.

Unlike other iPaaS options, we **handle unique needs of colleges and universities.**

Integrate faster and easier with less ongoing reliance on IT staff and custom coding.

Make faster decisions knowing accurate student data is flowing across systems. Streamline communications and reduce redundant tasks.

Prevent duplicates with confidence, relying on automated rules and data mapping best practices based on years of higher ed experience.

“We wanted to make sure the data moves into our SIS quickly, efficiently and accurately. And Constiuo offered the best solution.”

*Richard Beatty, Director of Enrollment Technology,
SUNY Broome*

Cloud-based solutions on **YOUR** terms – with **security, scalability** and **redundancy**.

Be Confident

Nobody moves data across the ecosystem better than Constiuo. We know the opportunities and relieve the pain points of integrating every major system serving higher education, including SIS, ERP, and CRM.

Move Faster

Campus departments move faster and independently with no-code data mapping tools. IT teams deliver quicker and more efficiently, with less complexity and reduced technical liability.

Stay Supported

Our customers are never on their own, knowing they can count on us to address new on-going integration pain points.
