

Connect every system. Confidently.

Your school deserves the smartest iPaaS solution for higher education.

Our cloud-based iPaaS gives colleges and universities more reliable data. Smoother processes. And a completely connected, digitized campus ecosystem.

Count on the integration partner who understands your unique system and data needs. We're 100% focused on the **demands of higher education.**

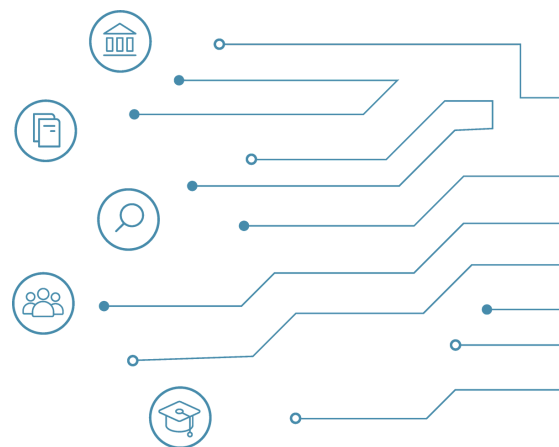

Accelerate enrollment with integrations built specifically for admissions, financial aid, and registrar operations.

Boost student retention with seamlessly connected campus experiences enabling the anytime, anywhere learning students expect.

Power campus engagement by connecting all teams – from HR to Alumni Development – with automated processes and reduced complexity.

“The Constituo platform is really flexible... it does everything we need and more.”

*AVP, Data, Operations and Technology
Thomas Jefferson University*

Cloud-based solutions on **YOUR terms** – with **security, scalability** and **redundancy.**

Integration

Get faster and more accurate data flowing between systems. Count on **lightning-fast speed-to-implementation**, tapping our experience integrating **every major SIS, ERP and CRM** serving higher education.

Transformation

Replace data-intensive, redundant and error-prone processes with **lightweight and non-programmatic mapping**. Prep and upload data from any source imaginable, to make it useful across the campus.

Customization

Put the power of **smart forms** in users' hands and minimize reliance on IT resources. Create opportunities with **responsive, event-driven forms** with simple drag and drop, point and click operations.
